

Take Me There

(Kenny Chesney, Wendell Mobley, Neil Thrasher)

There's a place in your heart nobody's been
Take me there
Things nobody knows, not even your friends
Take me there
Tell me about your mama, your daddy, your hometown
Show me around, I want to see it all
Don't leave anything out

Chorus

I wanna know everything about you then
And I wanna go down every road you've been
Where your hopes and dreams and wishes live
Where you keep the rest of your life hid
I want to know the girl behind that pretty stare
Take me there

Your first real kiss, your first true love
You were scared
Show me where you learned about life, spent your summer nights
Without a care
I wanna roll down Main Street, the back roads, like you did
When you were a kid, what made you who you are
Tell me what your story is

(Repeat Chorus)

Yeah, I wanna know everything about you
Yeah, everything about you, baby
I wanna go down every road you've been
Where your hopes and dreams and wishes live
Where you keep the rest of your life hid
I want to know the girl behind that pretty stare
Take me, take me, take me there
Oh, take me there, yeah –
